# Strategic Leadership at the Helm

## – A Message from Our COO

### Ravikant Ambwani

Chief Operating Officer – V-Tech India

With over 35 years of global experience in the automotive and engineering sectors, I've had the privilege of leading business growth across India, Oman, and the broader SAARC, GCC, and MENA regions.

My career has been shaped by a results-driven, profit focused mindset, working with a wide spectrum of garage solutions from diagnostic tools and DPF machines to tyres, lubricants, batteries, and more.

At V-Tech India, I lead our mission to build a robust nationwide distributor and dealer network, while managing OEM partnerships and full P&L responsibilities. My focus is on delivering scalable, ethical growth and enabling workshops across India to operate with greater efficiency and capability.

Prior to this, I headed key functions like sales, marketing, exports, and channel development, consistently transforming businesses into highly profitable enterprises. I take pride in driving strategy, streamlining operations, and empowering cross functional teams to outperform expectations.

I hold an engineering degree from NIT Bhopal and a postgraduate diploma in Sales & Marketing. My leadership journey has been further shaped by training programs at ExxonMobil and Snap-on Tools, covering areas like strategic selling, finance, and people development.

**At the heart of my leadership is a simple belief:**

**"Growth is sustainable when built on trust, performance, and value creation."  
That's the foundation we continue to build at V-Tech India.**

# History and Heritage

## V-Tech India: Two Decades of Excellence in Workshop Solutions

For over two decades, V-Tech India has been a trusted name at the forefront of workshop equipment and technology, renowned for our unwavering commitment to quality, innovation, and service.

Since 2021, we've also become India's leading provider of DPF Cleaning solutions, helping customers nationwide resolve DPF blockages with exceptional efficiency. Our advanced cleaning technology removes up to 100% of soot and ash from all types of DPFs — available through our network of nine Approved DPF Cleaning Centres strategically located across India.

## Our Journey of Innovation and Growth

Over the years, V-Tech India has continued to evolve, innovate, and invest in our people, products, and processes to deliver industry-leading service and reliability.

We've built strong partnerships with some of the world's most respected equipment manufacturers and have established lasting relationships with:

*These alliances are the foundation of our success and reflect our mission to deliver **trusted, high-performance solutions** that keep India's automotive industry moving forward.*

# Meet — Our Team

Senior Management Team

**RAVIKANT AMBWANI**

**CHIEF OPERATING OFFICER**

Ravikant Ambwani is the Chief Operating Officer (COO) of V-Tech India, leveraging over 35 years of global automotive and engineering experience to drive results across India, Oman, and the broader SAARC, GCC, and MENA regions. His focus is on profit-driven growth across a spectrum of garage solutions, from diagnostics to batteries. At V-Tech India, he is spearheading the effort to build a robust nationwide distributor and dealer network to achieve scalable, ethical growth and significantly enhance workshop efficiency across the country. An engineer from NIT Bhopal with a postgraduate diploma in Sales & Marketing, he is a proven leader who drives strategy, streamlines operations, and empowers cross-functional teams to outperform.

Senior Management Team

**HARISH RAJA**

**HEAD - SERVICE & BUSINESS OPERATIONS**

Harish Raja is the Head of Service and Business Operations at V-Tech India, bringing over 15 years of experience in the automotive equipment Sales & Service industry. For over nine years with V-Tech India, he has driven sales, service, and operational excellence across the country, managing a network of 45+ dealers and 11 DPF Cleaning Centers. Harish is critical in managing relationships with 10+ automotive OEMs and 1,000+ workshop dealers, resolving technical challenges, and addressing real-time market needs. Furthermore, he is responsible for international procurement and logistics, ensuring globally sourced equipment and spare parts align perfectly with Indian market demands for continuous support. His in-depth field knowledge and operational insight make him a key pillar in the success of V-TECH INDIA, Carbon-Clean India, and DPF Cleaning Centers – India.

Aligners**

**Tyre  
Changers**

**Vehicle  
Lifts**

**Wheel  
Aligners**

**Wheel  
Balancers**

# Built on Results. Growing Beyond Borders.

DPF Cleaning Centres · India & Now Nepal

## From a Vision to a Network

What began as a focused mission to bring premium garage equipment to India has grown into a thriving network of DPF Cleaning Centres spanning the country - and now **extending across the border**.

Every centre we open strengthens the ecosystem: more workshops gain access to expert DPF restoration, more vehicles get back on the road cleaner, and more partners grow their businesses alongside ours. This is growth that compounds.

### Kathmandu, Nepal

We've proudly opened our first DPF Cleaning Centre outside India in Kathmandu - a landmark step in taking world-class DPF cleaning technology to new markets. It's the beginning of V-Tech India's regional expansion across South Asia.
